OBJECTIVE

Customer-Driven Software Developer, with a diverse range of skill sets in Systems Analysis, Customer Service, and Team Management. Seeking employment in an Agile environment that can make full use of this multi-faceted background.

RELEVANT WORK EXPERIENCE

Blue Shark Games & Hobbies: Glasgow, KY   June 2021
Assistant Manager, Event Coordinator, IT Specialist
- Leveraged lean management principles for a small team of six people. Led the production, organization, and implementation of several community-building initiatives.
- Provided technical assistance with computer hardware and software, maintained information architecture and backend debug support for employer's commerce web app.

Dexaga LLC: Herndon, VA (Remote)   July 2019 - June 2020
Entry Level Developer, Front-End QA
- Utilized Git Bash, Bootstrap, and ReactJS to create and monitor Frontend implementation of commits. Followed responsive design principles to design an optimal UI/UX wireframe in multiple OS environments.
- Through the use of Linux/Windows CML, Vim, and AWS, constructed and interacted with Virtual Machines and Shell scripts that maintained SSL standards, viable for full product deployment.

Jones Lang Lasalle: Baltimore, MD   November 2014 - November 2015
SAP Inventory Technician
- Completed assignments with minimum supervision; functioned as second-shift management in a solitary environment. Capable of meeting deadlines and completing work in a timely manner.
- Performed regular inventory cycle documentation to ensure accuracy of the Maximo/SAP databases, making and reporting adjustments where necessary using system SOPs and Microsoft Office.

Career Development: August 2010 - March 2014
- Held several gig positions over several years, garnering unique skill sets and driving long-term career decisions.
- Acquired hands-on knowledge used in regular day-to-day operations, such as equipment maintenance, product inspection, and workflow organization.
- Built on interpersonal skills in a variety of settings, from consumer-based interactions to team-building and entry-level management techniques
